Biography:

A native of South America, Burt has lived in Raleigh since 1978 where he attended N.C. State University and obtained a B. S. degree in Civil Engineering in 1982 and a Masters degree in Civil Engineering in 1990. He is also a 1986 graduate of the UNC Institute of Government and obtained his professional engineer’s registration in 1988.

During the past 20 plus years he has worked primarily in the area of transportation both in the private and public sector. During this time he has been involved with all phases of transportation planning, programming and funding. His engineering career began working for one year for a private consultant company, before joining the City of Raleigh, where he worked in the Public Works Department and later in the Transportation Department for 13 years. During his tenure with the City of Raleigh he worked in many areas of transportation but, spent the last 3 years working exclusively administering the federal/state transportation planning process for the Capital Area MPO. Since 1996 he has been employed with the North Carolina Department of Transportation. During this time he has held various position both in the Program Development Branch, Information Technology Division and most recently in the Financial Management Division as the State Program Analysis Engineer.
